Curriculum

Reading

- Students will recount stories, including fables, folktales, and fairytales. They will determine the central message, lesson, or moral and explain how it's conveyed through key details in the text.

Writing

- Students will work on personal narratives.

Math

- Students will understand that shapes in different categories (rhombuses, rectangles, and others) may share attributes and that the shared attributes can define a larger category. They will recognize rhombuses, rectangles, and squares as examples of quadrilaterals.

Science

- Students will understand the human body systems and how they are essential for life: Protection, Movement, and Support.

Field Trip/Volunteers

Please return all field trip forms to your child's teacher.

Since it takes time to process all applications, please register as soon as possible on a WCPSS computer. Volunteer clearance does not roll over each year. Therefore, registration must occur yearly in order to volunteer.
