- 3/31 Snow Make Up Day
- 4/5 Field trip to the Planetarium
- 4/7 Report cards go home.
- 4/10-14 Spring Break
- 4/19 Field trip to the Poe Health Center

Curriculum

Reading

- Students will distinguish their own point of view from that of the narrator or characters.

Writing

- Students will start to research carnivorous plants to begin the next information research paper.

Math

- Students will understand the parts of a fraction and explore a fraction as a number on the number line.

Science

- Students will discuss the function of plant structures (roots, stem, leaves, flowers) as it relates to the survival of plants in their environment and explain how environmental conditions determine how well plants survive and grow.

EOG Prep

Starting this week, students will have Math EOG practice for homework. They will receive review problems daily that should be solved each night and returned to school the next day. Since the math will be reviewed daily, it's important for each student to bring back the practice activity for review.

Reading EOG will start in the beginning of April. You will receive a reading passage each night, and it will be due the next school day. Since the reading will be reviewed the next day, it's important for each student to bring back the practice activity for review.

Pasta For Pennies

Forestville Road is participating in the Pasta for Pennies fundraising campaign to raise money for the Leukemia and Lymphoma Society. We'll collect coins, dollars, and checks from Monday, March 13th through Friday, March 31st.

No amount is too small, and every penny counts! Let's send in those coins!
